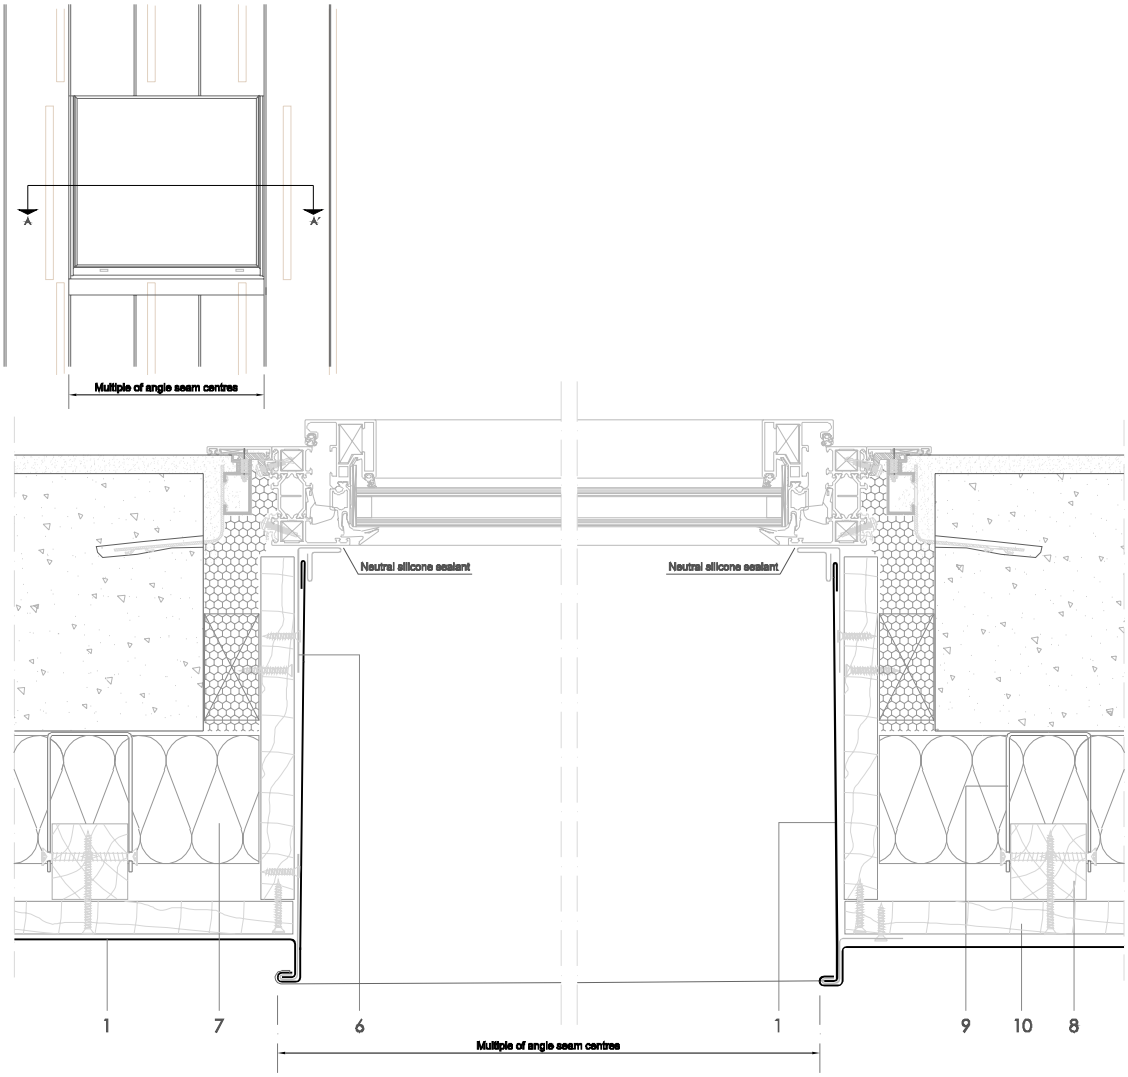
ASS V 7.1.02 Horizontal window section - vented sill.



Scale 1/5

All dimensions are indicative unless specified on the drawing
Sheet thickness may be exaggerated for clarity

Notes:

- Used for wide windows with a vented sill. For narrow windows with an un-vented sill, see ASS V 7.2.01. y ASS V 7.2.02.
- The elevation corresponds to windows lined up with vertical joints.
- For vertical section see ASS V 7.1.01.
- It is recommended to overlap the cladding with the sill by a minimum of 60mm.
- Generic structural details are given for indicative purposes only.
- Window sections reproduced courtesy of Technal.
