

## Engineered façades - Façade Panel (vertical design)

## FP V 3.1.03 Cladding foot with lower flashing edge.

## Scale 1/4

## Notes:

- The front face of the cladding foot flashing can be sized to match other parts of the façade such as corners and cappings.
- The lower fold of the bottom panel is reduced from 20mm to 10mm to allow air to enter the ventilation gap.
- Generic structural details given for indicative purposes only.

All dimensions are indicative unless specified on the drawing

Sheet thickness may be exaggerated for clarity

- 2. elZinc® weathering strip
