

Engineered façades - Façade Panel (vertical design)

FP V 5.2.01 Inside corner - with square corner weathering strip.

Scale 1/4

Notes:

- 'A' shows cladding installation direction continuing around the corner.
- 'B' shows cladding installation starting at the cormer.
- Corner faces can be sized to match other elements of the façade such as wall capping, window surrounds etc.
- A galvanized steel backer is shown behind the zinc corner piece to hold the zinc in place.
- See FP V 5.1.01 for matching external corner detail, and FP V 6.1.01 for matching abutment detail.
- For inside corner using a full size corner panel see FP V 5.2.02.
