

Engineered façades - Façade Panel (vertical design)

FP V 4.1.04 Cladding head vented at rear.

Scale 1/4

Notes:

- Provides greater weather protection than FP V 4.1.01, making it suitable for exposed conditions.
- Splits the capping into two pieces which can be useful for wider wall copings.
- The design can also be front-vented
- Wall capping front face can be sized to match other elements of the façade such as corner pieces, window surrounds etc.
- Generic structural details given for indicative purposes only.

- 1. elZinc® cladding
- 2. elZinc® weathering strip
- 3. elZinc® corner profile
