

Traditional systems - Double lock standing seam

## DLSS MD 5.2.03 Standing seam hip.

Scale 1/4

## Notes:

- Used on non-vented roofs or vented roofs where the tops of the hip rafters are notched to allow these bays to ventilate out at the ridge. Alternatively ventilation hoods can be installed at the top of each bay on a vented roof.
- Does not allow for 'herring bone' hip since seams must be offset either side of the hip. Head of seam finished according to DLSS 1.2.2.01

All dimensions are indicative unless specified on the drawing Sheet thickness may be exaggerated for clarity

- 1. elZinc® cladding
- 2. Membrane
- 3. Structural underlay
- 4. Folded galvanised steel profiles
- 5. elZinc® perforated sheet
- 6. elZinc® retention profile
- 7. Insulation
- 8. elZinc® hung gutter
- 9. Gutter clip
- 10. Gutter bracket
- 11. elZinc® clip
- 12. Trapezoidal steel deck
